

# Lost and Found in the Age of Alzheimer's: A Journey of Love, Loss, and Rediscovery

By [Author's Name]

Alzheimer's disease is a cruel and devastating disease that affects millions of people around the world. It is a progressive disease that attacks the brain, causing memory loss, confusion, and changes in behavior. Alzheimer's disease is the sixth leading cause of death in the United States, and it is the only one of the top 10 causes of death that cannot be prevented, cured, or slowed down.
